Hey!
depending on how long the protests go, I think this would be an opportune time to provide support for businesses in Ottawa that have been closed by the trucker's occupation of the city. SMEs and workers can't go to work because of it!
Unless they are covered under our programs already...?
Ok. A couple questions:
1. Where/who is this coming from? Haven't seen a stakeholder raise it just yet.
2. Why wouldn't our current programs work? They'd face a revenue drop.
3. How many businesses have actually been "closed" by the protests? Just the ones on Wellington (maybe Sparks too), right?
It's from me. I've heard from at least one business who emails us
